RE: Letter of Recommendation

To Whom It May Concern:

IMS Masonry has worked with us as a masonry subcontractor on several projects throughout the State of Wyoming. Rocky Mountain JR/SR High School being the most recent, and my first personal experience with this company. I have had the opportunity to work with several of their competitors throughout the State, and find IMS to be in a class above. The professionalism, dedication, and attention to detail that Clint Curtis, TJ Wieger, and their crews provided us with on Rocky Mountain JR/SR High went well beyond expectations. Their knowledge and expertise proved invaluable when determining means and methods in areas lacking sufficient detail in the drawings. I would be more than happy to have IMS on any of my future projects. It is my pleasure to recommend IMS Masonry for any current or future projects you may have.

Should you have any questions or concerns, please feel free to contact me.

Sincerely,

Scott Carpenter, *Project Manager*
